Haseko-Kuma Hall, The University of Tokyo, Japan

March 5: Keynote, Plenary Symposia, Sessions and Closing Remark (Face to Face and On-line)

Haseko-Kuma Hall, The University of Tokyo, Japan

The theme of the conference is “Learning Recovery and Innovation for Future Education: Design and Practice in School as Learning Communities”. As you know, COVID-19 and Russian invasion to Ukraine has drastically changed the world economy,

society and education. Despite that the COVID-19 and the recession of world economy threaten human right of learning of children and teacher professionalism all over the world, school as learning community has been active and impacted school reform and learning innovation. We, people who are concerned about human right of education for all, are keen to know what this means to democratize schooling in this hard age. It is also our firm belief that practical research which integrates theory and practice is integral to reflective practice and has been elaborated among colleagues in this movement.

In addition, SLC has pursued both quality and equality in learning. We proclaim a robust cannon that both are inter-supportive and inter-dependent of each other through enhanced inquiry and collaboration based on listening pedagogy. Inquiry is promoted with deliberation of reflection, which is facilitated by collaboration of diversity. We remind that the 9th International Conference tremendously succeeded by 2,000 attendees from 21 countries and areas.

Every country in the process of such reforms can learn valuable lessons from the experiences, knowledge, and insights gained from others. In this conference, we invited the leading professors from The United Kingdom, China, Korea, Taiwan, Singapore, Indonesia, Vietnam, Thailand, Mexico and Japan as keynote and plenary speakers. The 10th International Conference of School as Learning Community 2023 aims to provide a platform for education researchers and policy-makers throughout the world countries.

You are cordially invited to take part in this exciting international event, and to share your innovations, experiences, cutting-edge findings, best practices and visions of education reforms.
