### **Democratizing Schools and Classrooms from Within: The 5th International Conference for School as Learning Community**

**October 20-21, 2017, Gyeongsangnam-do, Korea**

It is with great pleasure that we invite you to attend The Fifth International Conference of School as Learning Community 2017 which will be held at Gyeongsangnam-do in Korea on October 20 and 21.

The theme of the conference is “Democratizing Schools and Classrooms from Within”. As you know school as learning community has drastically impacted on school reform in all of the Asian countries during the past two decades. We, people who are concerned about human right of education for all, are keen to know what this means to democratization of schooling. It is also our firm belief that practical research which integrates theory and practice in the reflective practice has been elaborated among the colleagues of this movement.

Every country in the process of such reforms can learn valuable lessons from the experiences, knowledge, and insights gained from others. In this conference, we invited the leading professors from China, Korea, Taiwan, Japan, Singapore, Indonesia, Vietnam, Thailand and The United Kingdom, as keynote and plenary speakers. The Fifth International Conference of School as Learning Community 2017 aims to provide a platform for education researchers and policy-makers throughout the Asian countries.

You are cordially invited to take part in this exciting international event, and to share your innovations, experiences, cutting-edge findings, best practices and visions of education reforms.
