(Face to Face and On-line)

Sangdo Convensia, Incheon City

The theme of the conference is “ Enacting Democracy at Classrooms, Staffrooms and Communities: A Keystone for Collaborative Inquiry of School as Learning Communities”. As you know, Russian invasion to Ukraine, Israeli attack Gaza in Palestine and US military actions to Venezuela and Iran drastically changed the world peace, economy, and society. In addition, despite that the recession of world economy has threatened human right of learning of children and teacher professionalism all over the world, school as learning community has been active and impacted school reform and learning innovation. We, educational researchers and teachers who are concerned about quality education for all, are keen to know what this means to democratize schooling in this hard age. It is also our firm belief that practical research which integrates theory and practice is integral to reflective practice and has been elaborated among colleagues in this movement.

SLC has pursued both quality and equality in learning. We proclaim a robust cannon that both are inter-supportive and inter-dependent of each other through enhanced inquiry and collaboration based on listening pedagogy. Inquiry is promoted with deliberation of reflection, which is facilitated by collaboration of diversity. We remind that the 13th International Conference tremendously succeeded by 601 attendees from 23 countries and areas in February and March 2026.

Every country in the process of such reforms can learn valuable lessons from the experiences, knowledge, and insights gained from others. In this conference, we invited the leading professors from the United Kingdom, China, Korea, Singapore, Indonesia, Vietnam,

Thailand, Mexico and Japan as keynote and plenary speakers. The 14th International Conference of School as Learning Community 2026 aims to provide a platform for education researchers, teachers, policy-makers throughout the world.

You are cordially invited to take part in this exciting international event, and to share your innovations, experiences, cutting-edge findings, distinguished practices and visions of education reforms.
